# Alabama's economy charges ahead with \$7 billion in new growth projects

Alabama's economy is surging forward with unstoppable momentum, and the evidence is everywhere. Employment levels have reached historic highs, and high-quality job opportunities continue to expand across our state. New companies are moving into Alabama, and existing ones are expanding.

This growth is no accident — it's the result of strategic economic development efforts that, in 2024 alone, generated over \$7 billion in capital investment and more than 8,500 new job commitments. These achievements are detailed in the 2024 New & Expanding Industry Announcements Report, released today by the Alabama Department of Commerce.

Our progress over the past four years has been remarkable. Since 2021, even as the nation faced economic disruptions, Alabama's economic development team has secured more than \$31 billion in investment and nearly 40,000 new jobs. That's one of the strongest economic development performances in state history.

Importantly, this success isn't limited to Alabama's largest cities. Rural communities are seeing strong growth, thanks to a dedicated focus on expanding opportunities in every corner of the state. In 2024, Alabama's rural counties attracted \$1.2 billion in capital investment, leading to 1,700 new career opportunities that will strengthen families and revitalize communities from one end of rural Alabama to the other.

But as exciting as these achievements are, I'm even more optimistic about what lies ahead.

To build on this momentum, we recently rolled out "Catalyst," Alabama's new economic development strategic plan. This bold, comprehensive initiative is designed to fuel sustained growth over the next decade and beyond.

With Catalyst, we are positioning Alabama for long-term success in an increasingly competitive global economy. We are ready to embrace new challenges, seize emerging opportunities, and ensure that Alabama remains a top destination for world-class companies.

One thing is crystal clear: Alabama is open for business, and our best days are still ahead.

A handwritten signature in black ink that reads "Kay Ivey".

**Kay Ivey**  
*Governor of Alabama*

# Growth projects, new strategies are unlocking Alabama's economy potential

I'm proud to share the 2024 New & Expanding Industry Announcements Report with the people of Alabama. This annual report is more than just a scorecard — it's a testament to our state's ability to attract world-class companies, foster innovation and create high-quality job opportunities.

The results for 2024 prove that Alabama's economy is strong, competitive and primed for future growth. Over the past year, our economic development team helped secure more than \$7 billion in new capital investment across 224 projects, creating over 8,500 career opportunities.

These game-changing projects span a wide range of industries and reinforce Alabama's reputation as a top-tier destination for business growth:

- Novelis is investing another \$1.6 billion in its integrated aluminum mill in Baldwin County, pushing the total investment in the project to over \$4 billion.
- Coca-Cola Bottling UNITED is investing \$330 million in a new headquarters and production/distribution facility in Birmingham, creating 50 jobs and preserving 750 existing positions.
- Meta Platforms launched plans for an \$800 million data center in Montgomery, supporting 100 operational jobs and building on the company's earlier \$1 billion+ investments in Alabama.

At the same time, Alabama's rural economic momentum is accelerating.

The 2024 report highlights \$1.2 billion in new investments and nearly 1,700 direct jobs created in the state's "targeted," or rural, counties. Industries focusing on solar panel manufacturing, aviation training, auto parts production and forest products are driving a new wave of growth in communities across rural Alabama.

One of the most exciting of those projects involves Republic Airways' LIFT Academy, which announced plans to establish a flight training center at historic Moton Field in Macon County, creating 35 jobs and bringing 57 flight instructors to train the next generation of aviators.

In large measure, the economic momentum outlined in the 2024 Report is the result of targeted strategies and strong partnerships. We expect that to continue with the launch of "Catalyst," our new strategic economic growth plan, which is tailored to spark innovation, attract talent and ensure long-term prosperity.

We're also seeing major progress through the SEEDS and Growing Alabama programs, which continue to unlock new opportunities and lay the foundation for future success. And thanks to the unwavering support of the Alabama Legislature, we're in a strong position to build on this success in the years ahead.

Alabama is on a roll, and we're just getting started. Together, we'll keep driving growth, creating jobs and ensuring a bright future for every Alabamian.

**Ellen McNair**

Secretary of Commerce
